Digital Online Ads are Losing their Effectiveness

- Multiple reports indicate that Google Ads and social media advertising are becoming less effective.
- Businesses experience lower conversions despite rising costs, with many marketers voicing frustration over diminishing returns.
- Click fraud remains a significant issue, with bots artificially inflating metrics and wasting advertisers' budgets. Click fraud rates in search campaigns can run between 14%-22%, depending on industry and geographic location. This means businesses pay for traffic that isn't real – no real people, no real results.

OOH is the only traditional media that continues to grow. The top 10 OOH advertisers in 2025 include:

Pudge and his team have been a dream to work with! They connected with us on a personal level and were able to help us better communicate who we are and what we do. They spent hours on SWOT analysis and research and really dug in to make sure that they got it right. The end result is a perfectly executed vision for the future. We love that our new logo honors our past while at the same time presenting a fresh, modern look representative of where we're heading. Thank you for sharing your talent, generosity and partnership with SOS Care.

You guys are awesome! Everything you promised you did and on time. George in sales and the design team are first class. We launched a new phone number and a new web address and it created calls in two weeks of digital billboards. The competition took notice. The hotels in town even began calling us on a more regular basis and we definitely added new transportation partners. The "drivers wanted" ad posted for only 48 hours and we had over 25 applicants! It ran simultaneously with three other billboards, so the number of applicants was amazing! You can count on future business from us.

"I think the smartest people are those who accept that: 'You don't know what you don't know. Some things should be left to the experts.' One thing I now know is that the expert design team at Coastal Outdoors are marketing geniuses. They know marketing! We met with them initially and gave them almost no ideas or direction and they asked us to trust them. In a short time they created a unique marketing strategy for our billboard advertising. It was simple, but informative; and at the same time creative and memorable. Then they took that one step further and even brought us in, dressed us up and had a photo shoot to incorporate both owners of MD Roofing & Windows on custom built extensions on the billboard. Brilliant!"

We have already had countless people calling us about our billboard: friends, family, potential customers and even our competition. The billboard design and location is really catching people's attention. MD Roofing & Windows will be Coastal Outdoor's customers for life. If you are looking to maximize your companies exposure then trust the experts at Coastal Outdoor. They are friendly, fun and even a little crazy...but they definitely know what they are doing.

I have had a long-standing business relationship with Coastal Outdoor and Joe Ellis, and I appreciate their ability to continue to evolve in their ever-changing industry so that they have the best products available to present to me to assist with our advertising efforts. Digital boards have been a great addition to our advertising strategy as the slides can be changed quickly and therefore we can promote current incentives and savings to the market. Joe is always quick to share opportunities with me, yet always respectful regarding my final decision. I trust Joe and Coastal Outdoor to watch out for our best interest and it doesn't hurt that when Joe comes by we get to discuss little SEC football!!
